DIVE NOTES

- Bring a light to see into chain wells and man-holes.
- Prepare for a strong current (2 to 3 knots).
- Entry is from upstream shore marker, follow the rope.
- Lock 21 lies along the South bank and is accessible via the weir.
- Upper work lies at 40 feet with the lock bottom at 60 feet.
- Visibility is 8 to 12 feet. (On a good day)
- Divers have placed lines from various points to aid in exploration. S.O.S. does not accept any responsability or liability for these lines or their use while diving.
