

Scene 1. This is what it looked like

2. This is what it looked like without any water

3. Back to scene 1, lets examine what happened
   1. Cut down all trees
   2. Burned bde house & sentry hut
   3. Cut dow all poles & booms
   4. Removed the doors (floated out later)
   5. Removed all machinery
   6. Removed the stair
   7. Raised water level.
   8. Paint gray, brown what is now below water.

Build a mock-up.
Check lense view - distance & area covered to determine size. Model can be used as mock-up lateron
